Neil Bernard B. Supillo

Concepcion 1, Sariaya, Quezon | neilsupillo@gmail.com | LinkedIn | Portfolio

Objective

An internship that will allow me to utilize my problem solving and programming skills for the growth of the company and myself.

Projects

Secrets (Website, GitHub)

- Designed a website to see other people's secrets and submit their secrets anonymously.
- Implemented user authentication, salting and hashing passwords, Oauth2.0, cookies, and session for registration, log-in, account recovery, and user information.
- Created a RESTful CRUD API to connect and retrieve user credentials and data from Mongo Db database.

Technologies: Ejs, Mongo Db, Node.js, Express.js, Bootstrap

Bookstore Management System (Website, GitHub)

- Developed a book management system to easily save, edit, create, and manage books.
- Integrated the backend using the RESTful CRUD API, Axios, and React-router-dom for connecting and fetching data from Mongo Db database to store the data for books.
- Expanded the backend capabilities by implementing search functionalities allowing user to search for a specific book by title or author.

Technologies: React.js, Mongo Db, Node.js, Express.js, Tailwind Css

Keeper (Website, GitHub)

- A fully functioning website to jot down quick thoughts or to save longer notes.
- Implemented a Restful API with Axios to facilitate communication between the frontend and backend components.
- Implemented create, delete, update, and read functionalities.

Technologies: React.js, Mongo Db, Node.js, Express.js

Technical Skills

Front-End Development:	Css, Html, JavaScript, React.js, Bootstrap
Back-End Development:	Node.js, Express.js, Mongo DB, Java
Other:	Git, Git Bash, VS Code, GitHub, Vercel

Education

Bachelor of Science in Computer Engineering

Manuel S. Enverga University Foundation-Candelaria, Inc.   Expected May 2024
